Dear --

Yesterday, the Trump Administration proposed opening nearly all coastal waters in the United States for oil and gas drilling - including the coast of California. We must stand together and say NO to this destructive and dangerous action.

**SIGN OUR PETITION OPPOSING OIL AND GAS DRILLING OFF OUR COASTS**

As Californians, our coast is one of our most precious resources, and it is our sacred obligation to protect it. From the Santa Barbara spill in 1969 to the Deepwater Horizon disaster in the Gulf of Mexico in 2010, it is evident that drilling for oil and gas is dirty and dangerous. Drilling for oil and gas offshore puts coastal communities at risk -- and burning oil and gas anywhere puts the future of our planet at risk.

The president’s action is a direct threat to our beaches, to our economy, and to our way of life. I represent the longest stretch of coastline in the City of Los Angeles, and I will do everything I can to protect it from drilling. Please join me in sending a strong message to Washington, showing this administration that we are united against this awful proposal.

Please [CLICK HERE TO SIGN THE PETITION](#) and please share the petition link with your friends to encourage them to do the same.

Regards,
MIKE BONIN
Councilmember, 11th District

Paid for by the Los Angeles Forward: Councilmember Mike Bonin's Committee to Oppose the Recall. 777 S. Figueroa St. Suite 4050. Los Angeles, CA 90017. More information at ethics.lacity.org.
